7th Mumbai Global Post - Laryngectomy Rehabilitation Academy Workshop

**Seminars and Practical Courses
with 'Hands on Training' including
the Provox® System**

VENUE

Tata Memorial Hospital
- Mumbai, India.

DATE

21 - 22 February, 2015.

INTRODUCTION

Over the past few decades considerable progress has been made in Voice, Pulmonary and Olfaction rehabilitation for patients undergoing Total Laryngectomy.

The Tata Memorial Hospital has successfully hosted the GPRA workshop for last 6 years. The format of this unique Hands on Workshop is based on a model practiced at Netherlands Cancer Institute at Amsterdam over last 16 years. This workshop will equip participant with latest techniques, clinical evidence & hands on practice with all aspects of voice, pulmonary & olfaction rehabilitation following total laryngectomy. This Mumbai workshop is part of the multiple GPRA courses conducted throughout the world by a team of nationally & internationally recognized experts in this field.

This course has been successful in training 120 participants from all over India & abroad in last 6 years. This will be the 7th course run by Tata Memorial Hospital - Mumbai based on the GPRA guidelines. (www.gpracademy.com).
